

Brand Guidelines

LUCYBOYD

Welcome!

My name is Lucy Boyd and this is an introduction to my brand guidelines. This manual is here to ensure that the visual design elements of my brand are used correctly.

The purpose behind the guidelines is to create uniformity across every application of my brand.

BUILDING THE BRAND

Throughout designing the brand it was important for me to reflect myself as a person. It was important to build a brand that captures the essence of who I am and what I want to represent. So who am I...?

VALUES AND PERSONALITY

I have a lot of enthusiasm when it comes to illustration and design. I have always been interested in this field of work and known it is the path I would like to go down. Below are the things that are important to me and what I want to be reflected throughout my brand.

Values

quality
simplicity
generosity

Personality

passionate
approachable
fun

DESIGN ESSENCE

Throughout every use and application of my brand it should be clear and obvious that it represents me. Therefore I need a look that is strong and consistent. The identity needs to feel familiar and expressive to allow it to stay clear in everyone's minds.

TONE OF VOICE

To keep my brand personal I have decided to speak in first person. This creates a more approachable, fun feel and makes it easier for the audience to connect.

INSTRUCTIONS

WORDMARK

LUCYBOYD

The Wormark is....

simplistic

clean

sleek

Use when....

To get the brand name across with either the visual marque or the monogram. Simplistic style keeps it from overpowering other elements of the brand but still has purpose.

CHOSEN FONT

I have gone with the font **Avenir Next** due to its very simplistic form and shape. This sits well with the visual marque and monogram. These two elements are very bold and empowering on their own so they needed a clean simple typeface to sit along side them. The sharp straight edges of the type perfectly compliment other elements keeping with the purpose of creating a minimalistic professional brand. It can be used with different weights and styles to create a range of effects when needed.

VISUAL EXTENSIONS

I would describe my brand as bold, minimal and clean. To keep with these three key words I wanted to follow this through into my visual extensions . These are a range of cropped versions of my monogram to create simplistic abstract imagery. They can be used in both colour ways; yellow on grey / grey on yellow. They are only to be used with these approved colours. DO NOT change the angle or positioning of the extension.

BUSINESS CARDS

My visual extensions can be used only on the back of my business card. The colour way and provided angle choices are your decision to use. Each variation can be used for any card.
